JUNIOR DIVISION GENERAL PROJECT EXHIBIT DISPLAY BOARD GUIDELINES

Display boards are great ways to share information, but when viewers walk by, they spend only 60-90 seconds looking at each display board. Make yours stand out by highlighting the main points of your project in a fun, interesting way. Follow these guidelines to create a display board for the Douglas County Fair & Rodeo .

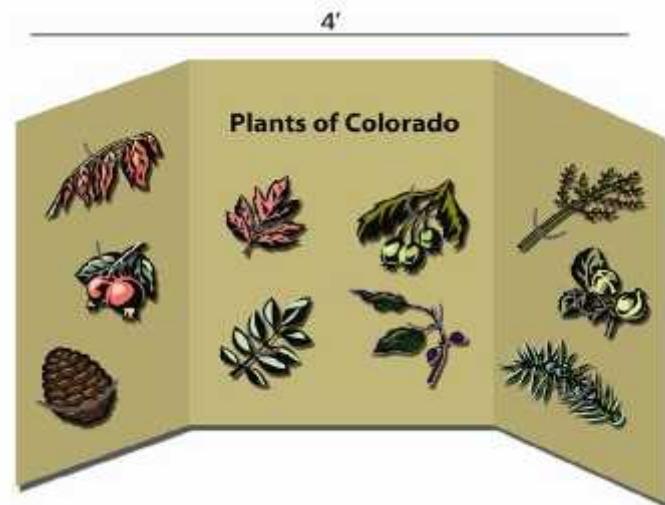

SHAPE

Design your exhibit so information fits on the display.

Remember, you have 1 large surface, and 2 smaller side wings.

SPACE

Your display should only discuss one main topic. This will help it look neat and uncrowded.

TEXT

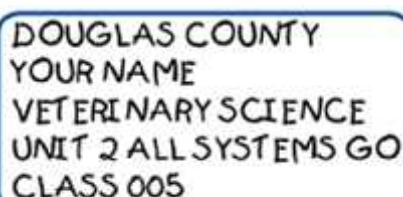

Make sure that all the text on your display is easy to read. Use a large font for the title, and smaller fonts for the headings and body text. Text must be readable from 3-5 feet away. Use large bold letters. Dark letters on a light background work best.

ATTACHMENTS

When attaching pictures or objects to your board make sure they are secure. Use glue for pictures and paper, and consider wires, zip ties or staples to attach bulkier items. Do not attach items that are so heavy that your board can't stand or fold.

SIZE

Display boards for the Douglas County Fair and Rodeo must measure 4' wide x 3' tall. They should be made of lightweight cardboard, but not poster board. Pre-cut boards are available at most craft and shopping centers. No part of your display may extend beyond these boundaries.

Label Example

DISPLAY BOARDS

Your e-record book must accompany your display board. You may use prong style binders or the 4-H Record Book Cover to keep the pages securely inside. You **MAY NOT** use slider-type binders. Unless specifically stated in the Junior Division General Project Department, Division or Class, 3-Ring Binders or Notebooks will not be permitted and may subject the entry to disqualification. Please place a label with the following information in the upper right-hand corner of the e-record book front cover, and on the upper right-hand corner of the display board or poster: Douglas County, Your Name, Project Area, and Class Information.

- I. **EXHIBIT REQUIREMENTS:** Exhibits must meet all the rules of the Department, Division, Class and Unit to be eligible for a Blue Work Award. Exhibits that do not merit a Blue Work Award are not eligible to compete for Champion Awards and may not be eligible for competition at the Colorado State Fair.
 - 1. Exhibits will earn Work Awards based on the merit of the exhibit. Exhibit Judges may disqualify an exhibit based on the quality of work.
 - 2. Premiums and Special Awards will be based on the Judges' decisions on Exhibit Day.
- J. **RELEASE OF EXHIBITS:** The release time for all general project exhibits is 5:00 p.m. on the final Sunday of the Douglas County Fair & Rodeo. Any Junior Division Exhibitor who leaves early will automatically forfeit all awards and premiums earned at the Douglas County Fair & Rodeo and are subject to discipline as set forth in the Section 1, VIII Douglas County Fair & Rodeo Competition Rules. Any exhibit released for a special Douglas County Fair & Rodeo activity must be returned for display immediately after the special activity.
- K. The Junior Division General and Home Ec. Department Rules will utilize the current year's Colorado State Fair 4-H Exhibit Requirements that can be found at
http://www.colorado4h.org/project_resources/StateFairExhibitReq.pdf

III. PREMIUMS

- A. Ribbons will be awarded in 1st thru 6th place only. No ties will be awarded in placings. Follow each departments rules for tie-breakers. Premiums will be paid thru 4th place.

R. DOG OBEDIENCE EXERCISE EXPLANATION: Moving Stand and Examination: The judge will give the command "forward," at which time the Junior Division Exhibitor will heel forward with his/her dog. After the Junior Division Exhibitor has proceeded forward about ten feet, the judge will give the command "stand your dog." Without pausing, the Junior Division Exhibitor will command and/or signal the dog to stand and continue forward about 10 to 12 feet and turn and face the dog. The judge will approach the dog from the front, gives a novice exam and gives the command "return to your dog." The Junior Division Exhibitor will return to his/her dog by going around and behind and back to heel position.

S. DOG OBEDIENCE EXERCISES AND SCORING: The principle feature of this exercise is that the dog heels and executes a prompt response to the Junior Division Exhibitor's command and/or signal to down and remain in the down position until called, or signaled to come on command. Orders for the exercise are "Forward," "Down your dog," "Call your dog" and "Finish."

1. The Junior Division Exhibitor will stand with the dog sitting in the heel position at a point designated by the judge, who will then ask "Are you ready?" and order "Forward." The Junior Division Exhibitor may command or signal his/her dog to heel, and will walk briskly and

naturally. After the Junior Division Exhibitor has gone about 15 feet, the judge will order "Down your dog." Without pausing, the Junior Division Exhibitor will command and/or signal the dog to down. The Junior Division Exhibitor will continue forward to the end of the ring, turn around and stand in a natural manner facing the dog. On the judge's orders or signals, the Junior Division Exhibitor will command or signal the dog to come and immediately sit in front of the Junior Division Exhibitor until the command to "Finish" is given by the judge.

- T. Recall Over Broad Jump: The principle feature of this exercise is that the dog stays until directed to jump, clears the jump on a single command or signal, and immediately returns to sit in front of the Junior Division Exhibitor. Orders are "Leave your dog," "Call your dog" and "Finish."
- U. The Junior Division Exhibitor will stand with his/her dog sitting in the heel position at least eight feet from the jump, facing the lowest end of the lowest hurdle. When the judge orders "Leave your dog," the Junior Division Exhibitor will give the command and/or signal to stay, go at least eight feet beyond the highest edge of the last hurdle, turn, and face the dog as in the Novice recall. On the judge's order, the Junior Division Exhibitor will give the command or signal to jump. The dog must clear the entire distance of the broad jump without touching it and, without any further command or signal, immediately sit in front of the Junior Division Exhibitor until the command to "Finish" is given by the judge.

Dog Agility
DEPARTMENT 25**

I. DEPARTMENT PROVISIONS

Because the safety of both dogs and Junior Division Competitors is of paramount importance, the following rules will be enforced.

- A. Members must be in good standing and have met all of the 4-H program dog agility training requirements to compete at the Douglas County Fair & Rodeo 4-H Dog Agility Trial.
- B. Dogs must be a minimum of 12 months old to compete in agility at Level 1 or above.
- C. No dog with a physical or mental condition that would significantly impair their performance may participate. Some examples of these include (but are not limited to) hip dysplasia, disc problems, severely slipped stifles, shoulder problems, overweight, or advancing age. A judge, Dog Superintendent or county 4-H dog agility trainer will have the authority to stop the performance of any dog whose soundness they question.
- D. Dogs that show signs of aggression toward humans or other dogs will not be permitted to participate.
- E. Female dogs in season are not permitted to compete. Diapers pose a hazard as they may get caught on a piece of equipment and cause a fall or an injury.
- F. A supervised warm-up area consisting of only a single jump will be provided in a specified area outside of the ring. No obstacle or jump shall be permitted elsewhere on the show grounds for training, warm-up, or other preparatory purposes.
- G. No flexible or retractable leads allowed on the show grounds. Dogs must be on leash at all times except when competing off leash in the ring or warming up in the warm up area.
- H. For safety reasons agility competitors may not wear hanging jewelry, scarves, or anything that can catch on an obstacle and cause an injury. Close toed shoes are required.

II. EQUIPMENT

- A. AKC equipment specification will be used for the Douglas County Dog Agility project.

III. SCORING AND EVALUATION

- A. Each dog starts with a perfect score (100) and receives deductions as the faults are made by the dog or handler. The level at which a youth participates with their dog advances based on the amount and difficulty of the obstacles as well as to the degree to which interactions occur between dog and handler. A score of 75 or higher is considered a "qualifying score."
- B. A dog receiving a qualifying score between 75 to 94 at the county show *may* advance the following year to the next higher class. A dog receiving a score of 95 through 100 at the county show *must* advance the following year to the next level. Once the higher level of agility is selected for the dog, the member may not drop back to the lower level with the same dog.
- C. Competing in more than one level with the same dog is not allowed.
- D. The maximum time for each course is determined by the judge, with the fastest times used to break ties on scores at all levels. Time starts when the dog's nose crosses the designated start point/line and stops when its nose crosses the designated finish/point line.
- E. All placings are final and at the discretion of the judge.

- F. Dogs soiling or urinating in the ring during judging will be dismissed immediately and receive no score.
- G. Handlers are not allowed to use treats, and/or toys with their dogs in the agility ring, except in the Foundation Level target exercise, nor may handlers perform the obstacles themselves. Such actions will result in a no score.
- H. A dog unable to complete the course for any reason (including leaving the ring, ceasing to work for a significant period of time as defined by the judge, being out of control, etc.) will be given a deduction as determined by the judge.
- I. In the Foundation Level, the handler may lightly touch the dog; however, they may not force the dog into position. (Example: pushing on the dog to make it sit) Handlers in levels 1-6 may not touch their dog in the ring once they have started their timed run.
- J. Any dog refusing an obstacle for the third time will be asked by the judge to go on to the next obstacle resulting in a major deduction (10 points).
- K. Refusing a judge's command is cause for immediate dismissal from the ring and will result in no score.
- L. Dogs will compete at the jump height based on the measurement at their withers. If you are showing a dog 7-years or older you may choose to compete one level below their measured jump height. Once the lower jump height is declared and entered it cannot be changed. Also, if you are showing a large, heavy breed dog (examples: Saint Bernard, Great Pyrenees, Mastiff, etc.) they may compete one level below their height.
- M. Dogs will be measured for their official jump height by their club leader or an agility project leader using an approved dog agility measuring wicket. Measurements must be made prior to entry in the Douglas County Fair & Rodeo and exhibitor must enter in the proper jump height class. Superintendent, Club Leader or agility project leader has the discretion to re-measure a dog and change the entry to the correct jump height class.
- N. Dog Agility Jump Heights:
 - 1. 8" jump height class for a dog 10" & under at the withers
 - 2. 12" jump height class for a dog 14" & under at the withers
 - 3. 16" jump height class for a dog 18" and under at the withers
 - 4. 20" jump height class for a dog 22" and under at the withers
 - 5. 24" jump height class for a dog 22" and over at the withers
