8-koi is a dynamic woman-owned small disadvantaged 8(a) business ready to help you meet your government contract procurement and delivery goals.

8 - KOI PAST PERFORMANCE

CONSTRUCTION

US Naval Facilities Command SE Naval Hospital

Exam Room and Communications Modernization

8-koi provides all labor, material, equipment, transportation, and supervision necessary to effect renovation of Naval Hospital Jacksonville, to standardize 94 exam rooms, operational areas, common areas and update the communications infrastructure. The work includes deconstruction, walls, ceilings, floors, other general construction trades, mechanical, plumbing, and electrical. All work is performed while the facility is staffed and remains fully operational. Extensive coordination is required with the facility, departments and vendors. Logistics and planning are key for the successful acceptance of the new systems prior to dismantling and removing the older ones.

Total Value: \$4,170,878.00

Naval Submarine Base (NSB) Kings Bay

Dredging Project

8-koi removed sediment, undisturbed soils and other debris from the MSF and dry dock areas. The operation involved divers assisted by surface supplied air. 8-koi managed the dredging and diving operations from a 150' barge with a 230-ton capacity crane and a tugboat. Our teams used a 60-foot airlift maneuvered by the crane and a 2" Hand Water Jet operated by divers for critical areas near structures, to remove the materials from the dredge area. Underground sensors were calibrated, High voltage underwater cabling and other structures were protected. Required depth was in excess of 40 feet of mllw. 8-koi removed approximately 7,000 cubic yards of materials during the dredge operations.

Total Value: \$1,313,914.00

DESIGN ENGINEERING

NASA Space Station Processing Facility

Design/Build Science Annex

The 8-koi team performed the complete design and build of the biological science laboratory facility at the SSPF, which included site civil, architectural, structural, electrical, mechanical, plumbing, process piping, controls, fire detection and protection, as well as data systems. The entire building and systems were modeled using BIM. LEED Silver® certification was awarded to the facility through the team's utilization of a high efficiency roofing system, energy efficient equipment, variable frequency drive motors, LED lighting, occupancy sensors, and building control and automation system. The facility was completed in 2014, on schedule and within budget. The facility is currently in use and continues to impact scientific research being performed aboard the International Space Station (ISS).

Total Value: \$4,749,016.00

TECHNICAL & ADMINISTRATIVE

SPAWAR

Management Support Services

8-koi provides administrative and acquisition related support services to the Sea Warrior Program (PMW 240) in Orlando, Florida and Arlington, Virginia. The Sea Warrior Program manages a complex portfolio of information technology (IT) systems that enable the Navy to support Navy human resource management, criminal justice, fleet support, afloat business applications, Navy and DoD portfolio management, DON administration, and joint aviation aircraft scheduling. PMW 240's mission is to rapidly identify and implement affordable IT solutions to Navy business and readiness problems for Sailors, the fleet, Navy, and other customers.

Total Value: \$3,820,000.00

HEALTHCARE

USAMRMC

Medical Training Support Services

8-koi provides medical training and support services to the U.S. Army at Fort Detrick, MD. They provide all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision, and all other items necessary to perform the required medical training. Since contract start in Sept 2014, 8-koi has completed train-the-trainer (T3) certification for over 20 trainers and has trained over 875 personnel including Commanding Generals and White House personnel. Our experts deliver a range of high-impact courses to include Combat Life Saver (CLS), Cardio-pulmonary Resuscitation (CPR) for HealthCare Providers (HCPs), Tactical Combat Casualty Care, Basic and Advanced Cardiac Life Support (BLS and ACLS), Pediatric Advanced Life Support (PALS), Tactical Combat Casualty Care (TCCC), and Pre-hospital Trauma Life Support (PHTLS).

Total Value: \$606,240.00

Walter Reed National Military Medical Center

Medical Administrative Services

8-koi provides qualified support to various Directorates and Departments at the Walter Reed National Military Medical Center (WRNMMC) in Bethesda, Maryland to include managed care administration and scheduling, healthcare enrollment verification, discharge protocol, direct care personnel training, patient education, risk assessment and quality assurance, reporting, reception, and data entry.

Total Value: \$5,624,832.00
