### Your Future Dairy Strategy

*Sharing input and thoughts about the current highly dynamic environment of agriculture!*

We've been able to arrange prominent key-note speakers, high-profile hotels, restaurants, locations for presentations, but moreover two breathtakingly beautiful countries where a lot can be learned and seen in the agricultural field!

The demand for dairy products is growing in South America. At the same time, consumers are becoming more demanding when it comes to food safety, traceability, animal welfare and environmental concerns. Innovation is a way to strengthen the competitiveness of companies.

It is the mission of Global Dairy Farmers to connect forward-thinking **dairy farmers** of high caliber and dairy related stakeholders from around the globe. We exchange newest ideas, knowledge, feedback and experience, find solutions and utilize business opportunities.
