

**Eight-hour training
offered over two days:**

**TUESDAY AND WEDNESDAY
SEPTEMBER 28 AND 29
8:30AM – 12:30PM EST**

Clinical Guidance for Treating Pregnant and Parenting Women With Opioid Use Disorder and Their Infants

This Clinical Guidance training provides comprehensive, evidence-based information to provide the optimal management of pregnant and parenting women with opioid use disorder and their infants. The training highlights successful approaches for caring for the mother with opioid use disorder and her child. This interactive training aims to help healthcare and behavioral health professionals and patients determine the most clinically appropriate action for a particular situation and informs individualized treatment decisions.
