### **Becoming a Conscious Creator in the New Divine Reality**

**Humanity is now crossing a threshold into more deeply recognizing ourselves as New Humans inside the Oneness of all things. We can acknowledge our expanded consciousness, our independence and freedom, and a greater desire for living each day in peace. We are living in our hearts and embracing the Ascension path. We are birthing a new reality that is conscious, life-sustaining, life-affirming, and life-enhancing. As we continue to Awaken and create this new Divine Reality, let us each commit to becoming Conscious Creators. As we embrace consciousness in every thought, word and deed, we can create new and powerful relationships with each other and with our Mother Earth.**

**Our Retreat is about returning to the Sacred Sites in the mountains of Colorado to receive new codes directly from Mother Earth and the Elementals. It is important at this time to follow your Guidance to where you are called to be. I can share that this time is precious in the creation of a new global restructuring, recoding and the rebirthing of a new Divine human race.**

**It is every Soul's desire is to live again as we did during the first Golden Race of Lemuria, in a peaceful 5D reality. Every Soul has their own path to help co-create this reality once again. When we are guided to go and be in specific places in nature, we have the opportunity to be the rainbow bridge between Heaven and Earth. We are answering the call of the mountains. We will use the energy of Zero Point which is the underlying energetic of absolute interconnected stillness from which all experiences are born. We will enter into our hearts as a collective in Sacred Ceremony, creating Zero Point energy. When we are in this energy we will step out of duality and our minds will stop offering a false reality. From here we are offered a boundless state of possibilities.**

**During this "planetary pause" we are given the opportunity as Light Workers to upload the New 5D Earth blueprint into Gaia's field. Just imagine a world vibrating in Love and harmony. Imagine a world without disease, hate or greed. These lower dense frequencies and systems are breaking apart and decomposing. We choose to use the precious time of our upcoming retreat to replace all that is not Loving with cooperation and compassion for all.**

**During the retreat we will access the ancient codes that the Great Whales bring to us in the etheric. The Whales are our elders and will assist us in opening our DNA to receive the highest vibrations we can sustain. Our evolution as human is reflected in your DNA. The whales and dolphins access this information as stewards for Gaia and the Earth. They sing to coordinate with the crystalline grid system and can actually change your vibration and essence when you connect.**

**Let us use this powerful time wisely for the greatest good of all. In coming together for this amazing retreat we will further receive an initiations of the highest vibration, allowing us to integrate the new codes of creation.**

**It is through this loving support that we can accelerate our expansion and come back to really living in In Oneness. Are you guided to share with your Soul Family? We are the collective that will gather with the greatest desire to help each other and this planet.**

**Remember my friends, we are the Conscious Creators, we are the Galactic, Solar and Planetary Alchemists, bringing all of existence into balance and harmony. Together we are activating the planetary Ascension blueprint. We have declared ourselves powerful ground crew and we are here to anchor the new 5D Earth!**
