

## Paper Mosaics

### Supplies:

White paper

1/4"-1/2" colored paper mini squares

(you can use a whole punch to make circles)

Pencil

Scissors or paper cutter

Glue

### Directions:

1. Cut your 1/4" or 1/2" squares from your paper using scissors or a paper cutter. It is best to cut strips, then cut the strips down to squares.
2. Draw out your design on a piece of paper. It can be simple or elaborate, just make sure it's not a detailed, intricate design.
3. Lay out your colored squares on your pattern and when happy with your design, start gluing the squares in place.
4. Let piece dry and frame or hang.
