Freezer Safe

0% PLASTIC

Renwick & Company Ltd., a leading distribution company introduces the Hotpack range of biodegradable products as a replacement to the banned single use plastics and Styrofoam products. With a corporate responsibility to contribute to the United Nations Sustainable Development Goals and to support the local drive to reduce environmental costs, Renwick and Company continues to engage in responsible procurement.

Hotpack is a recognized leader in quality, disposable food packaging and is prominent in the European markets. The line offers a full range of food packaging materials which includes, plates, cutlery, drinkware, straws and food boxes all made from the highest quality sugar cane bagasse and cornstarch. These products are 100% biodegradable which will assist with the mandate to reduce environmental waste in Saint Lucia.

For more information about Renwick's sustainable procurement practices, please contact the administrative desk at 455-8000 or email at contact@renwickslu.com.
