

To be a leader in the Materials Testing Industry, we strive to have a team of bright and hard-working individuals in order to truly succeed. At PES, we carefully search for the top talent - people who bring a fire and passion to be challenged and create solutions in their day-to-day tasks. We spoke with Bob D. - one of our new hires doing Heat Treat - about what makes him special, his background, and why he was so excited to join PES.

“Bob, tell us a little bit about your background and experiences prior to joining PES.”

Bob: I had 20 years of prior experience in the metals testing field, primarily heat treating with some analytical and metallography too.

“What made you choose PES?”

Bob: I decided to apply at PES based on a lot of their reputation for treating employees with respect and fairness. Also, I felt that it was a chance to better myself.

“Tell us what you like to do outside of work?”

Bob: Some of my activities are being a competitive pistol and rifle shooter, riding motorcycles, and enjoying older muscle cars when I can find the time

“What would you tell your younger self?”

Bob: “It’s okay to duck”
