

We aim to improve the health of our community through:

EXCELLENCE

We strive to excel in every aspect of public health to provide the highest quality of service.

PERSEVERANCE

Through every challenge we are determined to promote the health and safety of our community.

INTEGRITY

We aim to be a trusted and committed resource by being respectful, accountable and confidential.

EQUITY

Helping to overcome barriers to health through education and advocacy so everyone has the opportunity to reach their fullest potential.

COLLABORATION

We engage in partnership with community members and agencies. We continually assess community health needs.

Public Health
Prevent. Promote. Protect.

Door County

Door County
Department of Health
and Human Services

PREVENT

Prevention cuts cost for everyone through proven practices to foster better health

Immunizations

Registered Nurses provide education and vaccinations to the public of all ages. Immunizations by appointment.

Communicable Disease

- Preventing the spread of infection through education, investigation, and follow up.
- This Public Health function is mandated by state statute.
- Tuberculosis screening, counseling, and follow-up; distribution and monitoring of state provided medication
- Animal bite follow up for rabies control

Lead Poisoning Prevention

Lead exposure follow up and education.

Emergency Preparedness

Helping to keep our community safe by coordinating with local and national agencies to plan for and respond to disasters or outbreaks.

PROMOTE

Promote better health throughout the life span

Home Visits

- For individuals and families to assess health care needs and provide education
- For new parents and infants

Hearing and Vision

Screenings for children in collaboration with schools and daycares, and follow up with parents as needed.

Women Infants and Children (WIC)

WIC is a public health nutrition program for income-eligible women who are pregnant or postpartum, infants, and children up to age five. WIC provides:
