SYDNEY - New Ace Hotel

Iconic lifestyle hotel brand Ace Hotel opened its doors early this year, bringing its cultural and transformative design to Surry Hills, Sydney. The 100 year old Tyne Building one of Australia's first ceramic kilns (producing pottery as early as the 1820's) has been given a stylish makeover by Ace. A melting pot of old world with the future, this newly refurbished hotel and event space is minimalistic in its design and boasts an impressive art collection.

Home to three dedicated event spaces that are flexible and adaptable to suit your event needs. This is an amazing new venue to host your next event in Sydney! The event spaces are given fitting names to tie in with the history of the building.

BRICK - A large event space featuring high ceilings and extensive Surry Hills views. Room for up to 120 guests, Brick comfortably hosts large gatherings and can expand by 150 sq m if extra room is required.

CLAY - A sun-filled event space for everything from intimate events to team meetings and cocktail parties. Clay is intimate enough for a small guest list but can also be opened up and adjoined with Brick to accommodate larger groups.

TYNE - The largest event space features high ceilings and vast windows for soaking in the beautiful Sydney sun. Tyne is highly adaptable and fit for all occasions from large events to low-key lunches and get-togethers.
