The aim of the program is to increase the players personal skills to the next level. Using Futsal (Futbol de Salao – Soccer in a Room) as a platform for high speed, high volume ball touches and maneuvering in tight spaces. A typical Futsal game allows the player to touch the ball up to 600% more than traditional soccer thereby increasing the player's decision-making skills and comfort with the ball. A Futsal ball is smaller and heavier, which allows the player to easily command the ball and in return increase confidence that seamlessly transforms to a soccer game. This process produces skillful players.
