

An Evening with New Story Leadership: *The Phoenix Framework in Action*

Join Palestinian and Israeli New Story Leadership alumni for a presentation and discussion of their Phoenix Framework. In the midst of war, this team helped catalyze a bold new direction for post-war peace.

The program will review key elements of the evolving Phoenix Framework for newcomers, including new chapters on managing societal trauma and women’s role in peace-making. It will also highlight recent regional engagements and collaborations with officials and organizations in Geneva, the EU, and the French Government.
