

What is Log A Load for Kids?

Log A Load for Kids is a nationwide giving campaign through which loggers and others contribute to local Children's Miracle Network-affiliated hospitals to provide medical care to kids in need, regardless of their families' ability to pay.

What is Children's Miracle Network?

Children's Miracle Network raises funds and awareness for 170 member hospitals that provide 32 million treatments each year to kids across the U.S. and Canada. Donations stay local to fund critical treatments and healthcare services, pediatric medical equipment and charitable care.

How can I get involved?

- Sponsor Log A Load for Kids! Sponsorship levels start at \$250 and go up to \$10,000. For more information or to donate online scan the QR code or go to nclogaloadforkids.com.
 - Checks can be made payable to "The Community Foundation of NC East/LAL" and mailed to PO Box 3985, Greenville, NC 27836
- Attend the event! To register, go to scorechaser.com or by scanning the QR code.

ECU HEALTH
Maynard **children's** Hospital

James and Connie Maynard Children's Hospital at ECU Health Medical Center is committed to caring for the kids in eastern North Carolina. Our services and facilities have been designed for the unique needs of children - involving families from start to finish, delivered by specially trained clinicians in environments created just for kids. We are fully equipped to diagnose, treat and support your child, and make it our mission to provide the best care and best experience for every child.

Maynard Children's Hospital strives to enrich the health and the developmental potential of children through a harmonious venture that includes the child, the family, the health care team and the community. It offers emergency, intensive, general, rehabilitative, outpatient and chronic care to the neonatal and pediatric population in 29 counties served by its 197-bed Children's Hospital.

Meet Sledge! 2022 Miracle Child

Sledge was born prematurely at 26 weeks after an ultrasound revealed fluid around his liver and brain. He was immediately intubated and taken to the Neonatal Intensive Care Unit (NICU). He progressed and after his ventilator was removed, he transferred to our Special Care Nursery. After more than three months in the hospital, Sledge was able to go home. Today, he is a happy and healthy one year old!
