## **“Fresh From Florida” Logo Incentive Program**

The purpose of this incentive program is to provide participating agricultural entities with the opportunity to offset a portion of their consumer packaging and carton printing costs while promoting the “Fresh From Florida” message.

To qualify for incentive monies, “Fresh From Florida” (FFF) members must work directly with Florida Department of Agriculture and Consumer Services (FDACS) representatives and provide a printer’s draft proof for final approval before applications are considered for reimbursement.

This program is not intended to provide full compensation for a company’s printing costs, and is not intended to provide profit under any circumstances.

Usage of logos is limited to those companies who establish FFF membership prior to participating in the incentive program. Pre-approval of all artwork is required before application submission.

### **Reimbursement Limitations**

1. Consumer packaging and cartons are eligible for half (50 percent) of actual printing cost up to \$1,500.
2. Reimbursements will be paid to qualified entries upon receipt for as long as budgeted monies are available. FFF members are eligible for incentive monies only once per product for the duration of the program. Multiple product entries are eligible, but cannot exceed \$1,500.

### **Eligibility**

1. Participants must be dues-paying members of the “Fresh From Florida” Program to participate. Membership dues must be current at time of entry submission.

2. State agencies and non-paying members are not eligible to participate.
3. Media brokers and advertising third parties and co-packers are not eligible to participate and cannot use this program as a selling tool.

### **Requirements for Participation**

2. Products must be Florida-grown horticulture products or agricultural products in its raw state and never been frozen or subject to any form of thermal processing or preservation and not combined with any other product. All products must include the “Fresh From Florida” logo. The “Fresh From Florida” logo must be large enough that it is clearly visible and there is no degradation of the image.
3. A minimum of 1,000 items must be produced in order to be eligible for incentive dollars.
4. Consumer packages and cartons must have logos printed directly on the label. Photocopies of labels or logos inserted in or affixed to a label are not eligible. “Clamshell” packaging for fruits and vegetables must have a logo that is large enough that it is easily recognized.
