

Join Lutherans around the Synod & the Globe ...

Every year, Earth Day unites over a billion people across more than 193 countries to remember our **collective** participation in the challenges our planet faces, **and** the remarkable efforts being made to foster a more sustainable future for all. Join us in living today for a better tomorrow.

Our Shared EcoFaith Action Network Vision

In gratitude for God's good creation, the people of the Northwest Intermountain Synod ELCA live fully into relationship with all of creation by healing and preserving the goodness of Earth.

... living into God's covenant with all creation.

... living into God's covenant with all creation.

Join Lutherans around the Synod & the Globe ...

Every day is a good day to honor Earth.
Every action, big or small, is an act of faith.

Sing and Pray:

Resources abound to celebrate Earth's beauty and pray for its care. Check out [Lutherans Restoring Creation](#) website.

Plant Trees and Native Plants:

Trees absorb carbon dioxide, provide oxygen, and support biodiversity. Native species help local ecosystems thrive.

Reduce, Reuse, Recycle:

Stop with the plastics already, find creative ways to reuse items, and ensure you're recycling correctly.

Conserve Energy and Water:

Turn off lights when leaving a room, unplug electronics, and be mindful of water usage. At home and at church.

Support Eco-Friendly Businesses:

Choose local businesses that prioritize sustainability in their operations and products.

Educate Yourself and Others:

Awareness is the first step toward action. We can help your community find the resources you need. That's what we do. Email us at EcoFaithNWIM@gmail.com.
