AC EQUIPMENT REPRESENTATIVES, INC.
HVAC Environmental, Control and Energy Solutions

AAON heating and cooling products is engaged in the engineering, manufacturing, marketing, and sale of semi-custom heating, ventilation, and air conditioning equipment (HVAC) for commercial use. AAON is a world leader in creating comfortable and healthy indoor environments, efficiently, through the manufacture of premium HVAC equipment.

AAON Controls can provide the exact level of control needed for any application, providing a powerful control solution for HVAC equipment. The system allows users to take full advantage of AAON Controls' exclusive features.

AAON Parts & Supply offers a variety of top brands such as A-1 Compressor, Baldor, Bristol, Bitzer, Century, Copeland, CPS, Danfoss, Fieldpeice, GE Motors, Honeywell, Klein Tools, Emerson, Gates, Mueller industries, Packard, Rectorseal, Speedclean, Square D, TurboTorch, US Motors, White Rodgers, Yaskawa, Yellow Jacket, and many more.

Lennox VRF is a flexible, versatile solution that is ideal for a wide range of buildings and workplaces. From office buildings to retail environments of all sizes. Lennox VRF makes customized comfort easy and efficient with Heat Recovery and Heat Pump systems with outstanding low temp performance.

Explore the innovative Lennox offerings from the leader in advanced energy-efficiency HVAC systems-providing reliable comfort for light commercial buildings that include split systems, mini-splits, and unit heaters.

Danfoss is a leader in HVAC variable frequency drives with uncompromising focus on quality, reliability, and innovation delivering energy efficient products and services. The VFDs are user friendly with built-in intelligence, and are fast and cost-effective to commission.

Delta Cooling Towers – the most worry-free cooling towers available. Corrosion proof HDPE shell has a 20 year warranty and a 5 year motor warranty. Exclusive anti-microbial shell and fill pack optional.

Bosch water source heat pumps are highly efficient heating and cooling solutions for commercial, retrofit, and new construction applications. Available in a wide range of sizes and configurations.

Dunham-Bush offers a broad range of sustainable heating, ventilation, and air condition (HVAC) systems; dehumidifying and air cleaning products; service and parts support; and advanced building control solutions.

Combustion Research Corporation's infrared heating line encompasses low intensity gas-fired radiant infrared tube heaters and high intensity ceramic infrared heating with applications ranging from industrial, commercial, agricultural, CNG repair facilities, and residential.

Compu-Aire, Inc. manufactures in excess of 100 different models of specialty air conditioners for critical electronic systems facilities including, but not limited to, data center, network facilities, computer rooms, and other applications that have sensitive temperature and humidity needs.

Amazing architectural custom roof screens, elegant system enclosures, and door and gates. Everything CityScapes design, develop, and manufacture fits the needs of everyone from architects and property managers to contractors and building owners.

AC EQUIPMENT REPRESENTATIVES, INC.
HVAC Environmental, Control and Energy Solutions

Acutherm is the original thermally powered high-performance air distribution VAV diffusers. Acutherm makes environments more comfortable and efficient economically.

HygroMatik a leading humidification system and a manufacturer of electric element steam humidifiers, steam generators, atomizer, and pressurized steam systems.

Eurovac is a specialist in dust and fume extraction systems. Eurovac's objective is to not just supply equipment; but to supply engineered solutions to dust and fume problems.

The Iso-Aire exhaust and filtration system are great solutions for healthcare facilities needing to quickly increase isolation room capacity or add filtration capability to common and high traffic areas, such as waiting rooms, to protect staff and patients. Their systems were originally developed to address COVID-19 and other droplet or airborne based infections in a high performance, quiet, weather proof, and quick-to-install packaged unit.

UV Resources (UVR) is a leader in the education, design, and innovative engineering of affordable ultraviolet-C (UV-C) equipment for commercial, industrial, healthcare, education, food production, hospitality, government, and residential applications. Factory installed in AAON equipment.

Jetson is an engineering driven manufacturer of chillers, water cooled condensing units, and compressor units. With years of experience in all phases of the HVACR industry.

Reznor provides reliable, high-quality unit heaters, space heaters, and ventilation units.

Warren offers custom duct and standard unitary slip-in heaters to meet electric heating specification and design requirements.

Raywall product line includes unit heaters, convector heaters, standard baseboard heaters, architectural baseboard heaters, ceiling heaters, hazardous location heaters, wall heaters, and infrared heaters.

RenewAire Energy Recovery Ventilators (ERVs) improve people's health, cognitive function, productivity, and wellbeing by enhancing indoor air quality (IAQ) in homes and buildings of every type.

Ruud is a leading manufacturer of quality heating, cooling, and water heating products for residential and light commercial use. Ruud promotes a culture of continual improvements that is committed to exceeding customer expectations and requirements.

XeteX provides custom ventilation solutions for commercial and industrial facilities. Key app and design solutions include energy recovery ventilation, dedicated outdoor air systems, pool/natatorium dehumidification, custom air handling, desiccant dehumidification, and waste water treatment.

Dry Coolers, Air Coolers, Condensers/Gas Coolers – with nearly a century of technological and engineering excellence, Guntner air coolers are second to none. High quality, robust, and reliable products – give your design and business the very best.

PreVent air intake filter screens fit on the outside of HVAC systems and other types of equipment, keeping contaminants from entering the system and protecting vulnerable interior components like electronics, fill material, fins, and coils. PreVent air intake filters are custom-made in the USA to fit any outdoor or indoor air intake, with multiple frame and mount options. Reduce your maintenance, and simply brush, vacuum, or hose clean, with zero downtime.

As experts in the custom HVAC industry, Custom Air Handling Solutions can assist in the design process by providing optional layouts, performance reports, and budgetary selections.

HVAC Environmental, Control and Energy Solutions

Sigma has a wide variety of heating and cooling products. Sigma prides itself in being ahead of the curve in it's design and manufacturing methods. Omega Heat Pump provide all in one heating and cooling solutions for residential and commercial applications.

Pro Hydronic Specialties offers physics driven solutions for hydronic balancing while being dedicated to industry education and quality products, including Automatic and Manual Balancing Valves, Coil Hookup Kits, Hose Kits, Temperature Control Valves, and S/S/ Hoses.

Climate by Design International designs and manufactures custom desiccant dehumidifiers and critical process air handlers for numerous markets. CDI designs and manufactures the climate you need to achieve your critical mission.

SAMSUNG Most VRF and Mini-Split companies maintain the status quo, Samsung never will. Located in Roanoke, Texas, Samsung HVAC America is the North American headquarters for Samsung's heating and cooling products with distribution channels throughout the United States and Canada. We're a new kind of HVAC company, one that's dedicated to creating the most incredible heating and cooling systems in existence.

Dectron serving the dehumidification industry for over 40 years. Dectron and Dry-O-Tron brand of dehumidification has become the most trusted and proven brand in the industry, with more dehumidification installations than any other company.
