I really enjoyed this use of technology to allow me this opportunity! With a growing family this was the only way I could get some education in for this year and I found it very convenient and really applicable to my position and desire to grow as a coach! I do know with work demands and family life this can be a great way for other coaches to continue to grow without too much undue hardship or absence from the family.

E.L Head Coach, US College, California, USA

'I like the format as it saves on time, but still keeps you present during the sessions. I felt that I profited equally as much from the recorded sessions as being live'

**R.S, PGA Professional,
France**

"The course has given me a lot of inspiration, with so many years in the business, it is nice to refresh and develop my experience, and also have the opportunity to share with each other new ideas and concepts! It was a very good course and I can't wait to come back next year - thank you!"

'I just wanted to quickly touch base to thank you for the course and as I haven't been able to attend the seminars themselves just a quick note to say that I enjoyed them and have been implementing a lot of which you discussed'

C.C, PGA Professional, Indonesia

'Just wanna say thank you for the great insights. I really love the way you're doing this. This was the best course i've ever had, so for me it's been ideal. Almost every course I was visiting up til now was about telling us things. Nobody was asked to think their own way. So that's why I'm really enjoying this! Looking forward to next week!'

A.S, PGA Professional, Germany

'For me that was amazing. The only reason I was able to do it. For me, doing the course over 10 weeks helps remember much more as we are constantly revising the topics. It gives a very clear big picture, how to maximise player development. The content of the course is great.'

T.M, PGA Professional, Switzerland

'Fantastic - I think you did a very good job with this course'

M.V, Tour Coach, Holland
