

How to Find an Internship

Where would like to intern? Think about the type of internship, possible company and geographic location (city or state).

Think about the type of internship experience you want to have? What skills do you want to build during this experience? Think about your long-term career path.

Where to look for an internship?

1. Personal Networks

Many times students know of internship opportunities within their own networks.

Look at networking with your Professors, Friends, Family and other Bobcats

- Ask questions about how they got to where they are now, ask for industry feedback, and ask for tips on how to break into the industry.
- Expand your network- ask folks if they know anyone else, you need to meet and speak to.
- Always follow-up with people you meet.

2. Ohio University Job Database

Internships and jobs posted by employers is located on *Ohio University's Handshake* database. This is a free, simple process to access and post your resume and find internship & jobs.

International Education Center www.ohio.edu/educationabroad
Globalexperiences.com

4. Specific company websites

If you are interested in a particular geographic area, you may need to look at the possibilities and then make inquiries.

For example, if you want to intern at a newspaper, first make a list of the newspapers in the area and then do some research on their websites to see if they list internships. If not, you might contact them and let them know you are interested.

Checking out your internship company

Do some research on the company you are looking to intern with prior to applying for the internship.

- Glassdoor for companies and reviews. <https://www.glassdoor.com/Reviews/index.htm>
- Other peers who have interned with them.
