HOLIDAY FOOD WASTE TIPS

Put waste in its place this season!

NICE

- Create a meal plan. Stick to your list
- Ask your guests to bring take-home containers for leftovers
- Use veggie scraps and turkey carcasses to make soup
- If you do have food waste, put it in your green cart

NAUGHTY

- Fats, oils, and grease from meats should be cooled and put in the trash, **NOT** down drains or toilets
- Buying more than you need increases the likelihood of food waste
- Single use aluminum trays are not recyclable and should go in the trash
