

Akos Essential Safety Care

The most comprehensive virtual health platform in the industry

Akos Essential Safety Care delivers employees critical access to healthcare when they need it most. Employers receive the confidence that they are creating a healthy and safe environment for their workforce and customers.

Essential Safety Care is a complete healthcare solution that addresses both healthcare and work site injury needs in a seamlessly integrated affordable technology focused solution.

- ✚ **24/7 telemedicine for sick and urgent care** – employees receive access to a provider whenever, wherever within minutes via phone, tablet or computer. Akos providers can diagnose over 1,500 illnesses, then create a care plan and prescribe medications when appropriate.
- ✚ **COVID-19 employee safety** – Essential Safety Care delivers critical care for employees who believe they have symptoms associated with COVID-19 or have been exposed to someone that has this virus.

- ✚ **24/7 workers' compensation telemedicine and cost containment** – employees receive the care they need when they are injured on the job. The Akos Connect platform allows secure and recordable video connectivity with the injured worker, from initial nurse triage and first aid to an occupational health certified provider consultation at the time of injury. This significantly reduces ER or urgent care visits as well as downstream cost like referrals for imaging, as well as indemnity claims for time out of work.

A complete solution for health and safety

- ✚ **Employees** – Boost employee loyalty with the benefit of a healthy and safe workplace.
- ✚ **Customers** – Demonstrate to customers that you care by creating safe and healthy environment.
- ✚ **Business** - Reduce liability by creating a healthy and a safe environment for their workforce.

Medical care made easy
