'CAREERS OF THE FUTURE EXPO'

For the **Redmond Middle School 8th grade students** organized by RMS PTSA in collaboration with RMS Counselors

The Parent Teacher Student Association (PTSA) strives to organize a variety of events geared toward parent and student education as well as community engagement. **Student engagement** refers to the degree of attention, curiosity, interest, optimism, and passion that students show when they are learning or being taught, which extends to the level of motivation they have towards identification with and belonging at school. With this goal in mind, the PTSA and the school are planning a 'CAREERS OF THE FUTURE EXPO' for the RMS students.

Date: June 7th

Venue: Redmond Middle School, 10055 166th Ave NE, Redmond, WA 98052

Time: 1pm - 2:20pm

Event Purpose:

Make students more aware of how their current curriculum connects with their future lives.

Provide students with an opportunity to learn about the exciting opportunities and support available in their community.

Experts / Vendors from various fields such as STEM, Pure sciences, Education, Research, Literature, Social Service, Art and Fitness are invited. It is different from a Career fair in the sense that students would get to interact with Vendors /Personnel and can learn about how to prepare themselves for these different careers. The event will provide insight into professions. We want to help enable the Lake Washington School District (LWSD) vision -- Every Student Future Ready:

- Prepared for college
- Prepared for the global workplace
- Prepared for personal success
