

Activities and tours from museums around the world

The [National Museum of Natural History](#) has put together gorgeous virtual tours across the entire museum, including research labs, sister properties, and a fully [3D VR compatible](#) tour of their main building!

We'd be remiss if we left [The Louvre](#) off this list. They've provided seven official gallery tours translated into English and spotlights on their more famous pieces (like the [Mona Lisa](#)).

For the space-minded, the [Palomar Observatory](#) has a full 360 virtual tour of the visitor center and their telescopes.

Or for anyone looking for an extra-terrestrial trip, NASA collected an [entire library of planetarium shows and rover videos!](#)
