

Sherman Independent School District

NEW TEACHER ACADEMY

August 1-4, 2023

On behalf of all the SISD team, we are pleased to welcome you to Sherman ISD! We are excited you have joined our team, and hope that your first year here is one of the best. Our goal is to provide all teachers new to the district with a variety of support services to ensure a successful first year in Sherman ISD.

The first of these district services is our New Teacher Induction. We have planned this exciting and informative academy to help acclimate you to the district and to provide you with support so you will feel best prepared for our coming school year.

As you can see from the enclosed agenda there will be time to collaborate and learn together as you explore our district's expectations, best practices and the many instructional support programs that are available. During this time, please do not hesitate to ask our staff any questions you might have; we will be happy to assist you. We look forward to working with you and wish you success as you start the new school year.

Sincerely,
Dr. Tyson Bennett
Superintendent of Schools
