Total Damaged: 80			

CURRENT SITUATION

Current Situation	<p>Dixie Fire West Zone: The heavy smoke layer continued to dampen down fire activity overnight. Today, critical fire weather conditions exist. There is an anticipated wind event that will occur today over the fire area. Temperatures will be in the triple digits and winds are forecast to be WSW at 22 MPH with gusts up to 30 MPH. Damage assessment is ongoing, and the number of damaged and destroyed structures may change as teams are able to access the fire area safely. Evacuation Warnings and Evacuation Orders could change at any time. Please see below for information affecting your area. California historically experiences some of the most devastating wildfires. Do Not Let Your Guard Down! To learn how to prevent sparking a wildfire visit www.readyforwildfire.org.</p>
--------------------------	---

	<p>Dixie Fire East Zone: All lines at Keddie Point and into the North Arm of Indian Valley are holding and are supported by additional firefighters and equipment resources. Fire continues to flank in the Peters Creek area and firefighters have completed prepping Beardsley-Grade Road to the south. The fire progressed to the south and east into the Walker fire scar and remains south of Fruit Growers Boulevard. Firing operations were conducted on Antelope Road to create a buffer in preparation for a south wind event. Control lines continue to hold around Lone Rock and the fire has not progressed in the Sheep fire scar. The fire continues to flank near Coyote Peak and Hamilton Mountain and firefighters will be constructing indirect and contingency lines. Firing operations around Dyer Mountain are ongoing and will continue into another night shift if conditions allow.</p>
