

Important Changes in our Special Offering Collections for 2025

In 2025, our accounting and distribution of special offerings will change. Rather than maintaining accounts for each monthly recipient, all donations will go into one of two accounts: Disaster Relief or Special Offerings.

Disaster Relief: Your donations to Disaster Relief (our January 2025 special offering) will be distributed throughout the year to help victims of disasters in the US and around the world. All donations for Special Offerings in the month of January and any other donations marked “Disaster Relief” will go into the Disaster Relief Fund.

Special Offerings: Your donations to Special Offerings from February 2025 – December 2025 will be distributed in January 2026. The total amount raised will be divided by 11 months and distributed equally. (In months with two recipients, those recipients will split the 1/11th distribution).

Donors who wish to give one check for a year’s worth of special offerings can do so.

Please note: Donors who would like to give to a specific organization rather than our Special Offerings fund, are encouraged to give to them directly. Each month in the newsletter, we will include contact information for the nonprofit we are highlighting.
