re: Blood Bank of Hawai'i (BBH)

CRITICAL need for O type blood donors

Dear Fellow Flight Attendants,

This is from our friends at the BBH

*

It's what's on the inside that counts and Hawaii's patients are counting on you to give blood now. **We have less than a 1 day supply of O+ blood type on our shelves for local hospitals.**

O+ blood types are the universal donors for positive blood types. O- blood types are the universal donors for ALL blood types. Patients depend on **YOUR** blood being available when it's needed, like **NOW**.

On behalf of Hawaii's patients and loved ones, thank you for being a loyal blood donor and helping ensure blood is available when it's needed. Please schedule an appointment today to donate blood. **Call 808-848-4770** or make an appointment online at www.bbh.org.

For anyone who can help, please do what you can.

In Solidarity,

Jaci-Ann, Kahea, Kerri and

the entire Council 43 Leadership Team
