California Wildfires

Aloha LAX,

As you are likely aware, the ongoing fires in Southern California continue to pose a significant threat to our communities. We understand that many of you may be impacted by evacuation orders or hazardous air quality in the area.

Your safety is our top priority. If you are being forced to evacuate or if the fires are affecting your ability to report for duty, please reach out to management and/or AFA as soon as possible. We are here to provide support and assist in any way we can during this challenging time.

We also want to remind everyone to take precautions to protect your health. Even if you are not in immediate danger from the fire, the smoke can be just as hazardous. Please wear N95 masks when outside or in areas with poor air quality to minimize exposure to harmful particles.

If you need assistance or have questions, do not hesitate to contact your officers. Stay safe and take care of yourselves and your loved ones.

In Solidarity,

Joshua Aoki
