

Hawaiian Airlines Local Executive Council

## Company Letter for COVID-19 Vaccine

February 3, 2021

Aloha LAX,

As many of you have seen by now, the company has provided a letter to Non-Hawaii resident Flight Attendants for you to provide as proof that we are considered essential workers and should be prioritized. As HNL Flight Attendants were able to get their vaccines in Hawai'i, your LAX officers went to bat to ensure the company prioritized us as well to receive our vaccines in the mainland if we chose to. Since the company does not have as much influence with the State of California as they do with the State of Hawai'i, Council 47 asked upper management to provide a company letter stating why we are more than just "transportation workers" and should be prioritized as stated in the letter. Jon Snook and Robin Sparling understood the need for these letters and we would like to thank them.

Flight Attendants at other airlines have received similar letters from their company and were successful at using the company letter to receive their COVID-19 Vaccine. Our hopes are that this letter will provide you the same opportunity to get your vaccine as well. The company letter has been emailed to your company email address for you to print. If you have any questions, please reach out to any of your officers.

In solidarity,  
Josh, Nate and Beth
