Dear Flight Attendants,

MEC Officers meet COO Jon Snook and Vice President Robin Sparling

On Friday, May 27, 2022, your MEC Officers got to meet with our Chief Operation Officer Jon Snook and our Vice President of Inflight Robin Sparling to re-introduce ourselves and discuss our plans to re-establish recurring meetings with them. This will create an invaluable source of communication with the intention of enhancing our AFA and Management relationship.

One of our concerns brought up was our MCO route and its status. Although the Company admits that these flights are not as full as other long hauls, they do not foresee discontinuing this route, it may just need more time to prove productive. Similar to the start of our AKL route, it took 1.5 to 2 years to gain the momentum it needed to show profitability and sustainability.

We also just met with Robin Sparling on June 6th to resolve some issues needing immediate resolution.

Scheduling Concerns

We have an upcoming meeting scheduled this week with the recently promoted, Terrance Chariandy. He was promoted to Director of Crew Scheduling. We will discuss ongoing scheduling concerns raised by our members, such as Reserve issues and the ROA/Ground Holding online form.

Update on TPT PLOA & Separations

The Company maintains their vaccine mandate with the consideration of CDC guidelines and the current status of COVID-19 infection rates.

Our AFA Staff Attorney is on property for the next two weeks as we are in the Screening process of all HA MEC grievances, including TPT Separation cases. You can find more information regarding this process, as well as the roles and responsibilities of the MEC Screening Committee in our MEC Policies and Procedures by [clicking here](#).
