**Re: CRAF Flying**

Dear Flight Attendants,

Since the company's announcement of Hawaiian's participation in the US Government's Civil Reserve Air Fleet (CRAF) flights, we have received many questions about what this entails. Although we have been in talks with the company, there still has been no detailed information specific to the particulars of this type of flying. While we continue to work with the company to learn more, it is our goal to speak to the safety and CBA provisions where applicable. We will communicate any updates as more information becomes available.

Thank you for your patience as we continue to work with the company. While we know many of you have questions, we will be sure to release updates in a timely manner.

In Solidarity,  
The Hawaiian MEC
