SEGMENT TRIP REMINDERS

Section 12.L.7 - *a FA may not drop or trade an individual segment created under this section 12.L into Open Time*

Section 12.L.5 – *If the Company would have otherwise provided a hotel room, only (1) of the FAs shall receive the hotel room in the layover city. The FAs shall determine between themselves who shall be eligible for the room. In the event they cannot determine, the person who works in shall get the room.*

The Company has advised AFA they will be putting out a communication shortly of their process when segmented trips are found placed into the Open Time folder. We understand the hotel designation is inconsistent & we will address this with the Company to resolve.
