

COVID-19 Vaccine

January 23, 2021

Dear Flight Attendants,

The Association of Flight Attendants (AFA) has joined with the company in putting out the attached communication that contains important information on the COVID-19 vaccine. We have been requesting clarification on the status for flight attendants receiving the vaccine. Also, whether the company would require employees to get vaccinated – it has since been determined they will not. The communication also contains a Q&A that addresses many frequently asked questions. [Click Here for Q&A](#)

AFA is advocating as part of an industry coalition to have airline workers in Tier 1B. The Centers for Disease Control (CDC) is recommending the same however individual counties in California will determine their own tiers. We will continue to advocate on your behalf and pass along information as it becomes available.

For the most updated information on your specific county, please continue to check the websites below.
