July 20, 2020

Aloha LAX,

As most of you know, Jeff Kurtzman, one of our LAX 'ohana, has been hospitalized due to COVID-19. He is currently in an induced coma and is on a ventilator. Our hearts and prayers are with him as he fights to survive. Both the company and the union have been in contact with his friends and are getting updates daily. Please know that he is not alone in this process; His closest friends and loved ones are with him, outside of the hospital, and will be available to him when he wakes up.

AFA will be sending a virtual card to Jeff so that he can see how much he is loved when he wakes up from his coma. We are asking members to submit a message to the link below and we will attach it to Jeff's card. Now, more than ever, he needs our love, support, prayers and well wishes. We would like to send this virtual card to him by Thursday, July 23.

This hits home for a lot of us. We hear things in the news but to actually know someone who is fighting for their life can be a heavy burden. If you need someone to talk to, please reach out to our EAP Representatives. We are here to support you and provide you the appropriate resources.
