## UNITED AIRLINES DAY OF ACTION

United AFA Flight Attendants hosted a day of action across the country yesterday to demand United Airlines fix ongoing operational disruptions and focus on labor relations that support people on the frontlines.

United management's failure to properly staff crew schedulers, the flight attendant support team, catering and more has exacerbated these operational issues and left passengers and Flight Attendants waiting for answers for hours at a time.

AFA has offered solutions to these problems, but management has yet to acknowledge there is a problem.

"Good isn't leading the way at United. Flight attendants are fed up and showing up to the picket line," said Ken Diaz, United AFA MEC President.

Hawaiian AFA LAX base Ohana showed up in solidarity with our United AFA Council 12 siblings. #FedUpShowUp
