

## AFA-CWA LEC ALERT

Local Executive Council 43, Honolulu-Base

December 24, 2021

**Re: Company Vaccination Mandate, general**

Dear Fellow Flight Attendants:

We have received many questions about the company's vaccination mandate and continually send your questions to the company for more information. The questions focus on what will happen after the Tuesday, January 4, 2022 deadline (1159 pm/Hawaii).

While we do not have answers, please know that we have been asking the following, including but not limited to:

- 1) What will happen to schedules and trips on January 5, 2022?
- 2) What can our TPTP FAs expect who are not requesting a personal leave of absence?
- 3) Will there be staffing concerns for the company?

While we appreciate your patience and understanding, we acknowledge that this is a very difficult time for many of us. We know that the company vaccination mandate will have a lasting effect on our entire Flight Attendant `ohana.

Please know that with the holidays and all that is going on with this pandemic, there are resources for you and your loved ones:

AFA Employee Assistance Program (EAP): [please click here](#)

HA EAP: call 800.634.6433 (24 hours/day) or [www.mylifematters.com](http://www.mylifematters.com) (password HAL1)

Mahalo to each of you for showing up to work, being professional, and serving not just our airline, but the communities that we fly to as the company's brand ambassadors.

Better Together, Stronger Together,  
Jaci-Ann, Kahea, Kerri and  
The Entire Council 43 Leadership Team
