

To all Portsmouth Indoor Pool members,

When is the indoor pool going to open? When the Governor waives many, if not all "social distancing" guidelines, the city health officer says we can operate as we did before Covid-19. We will fill the pool back up and have it ready to go, then we can safely return and exercise together.

We don't know exactly when that will be, but rest assured that we will continue to monitor the Pandemic conditions and reopen as soon as reasonably possible.

While we applaud the decision of local pools to reopen on a limited capacity, while maintaining social distancing, it is not financially viable to reopen the Portsmouth Indoor Pool in a limited capacity when other essential civic services (fire department, police and public works) are struggling with reduced budgets.

While the Indoor Pool is closed we are repairing and restoring the pool infrastructure, including draining the pool, plumbing projects and evaluating the programming schedule. When we can reopen and welcome all of you back, your pool will be better than ever.

Wish we had better news, but this is the reality we live in. We miss all you guys and hope we can open as soon as possible. Stay healthy!
