Amy Peltier Interior Design & Home

Amy Peltier Interior Design & Home offers family-friendly residential interiors with a unique design perspective. They assist clients with a variety of projects, ranging from furnishings to entire remodels, additions, and new construction. With almost 20 years of interior design experience and offices located on both the East and West Coast, Peltier Interiors is comfortable, and family focused while still displaying style and refinement. Known for her preppy style infused with a dose of California casual, Amy Peltier procures interiors that are a little classic, a little modern and always fresh.

As owner and founder, she brought a wealth of knowledge and experience in residential interior design when she departed Michigan and arrived in Southern California in 2010. After her arrival, she re-opened her namesake design firm, Amy Peltier Interior Design & Home which was founded in 2008. Armed with her passion for design and highly recognized professionalism, she quickly became one of the most well-known interior design studios in the Pasadena, California area.

With a diversely talented, constantly growing team of 7, they manage projects across Southern California and beyond bringing just the right touch of Midwestern tradition to the West Coast. This success has allowed Amy and her team to expand their services to the East Coast serving the Virginia, Maryland, and D.C. metro areas, bringing a hint of California casual style to the traditional East Coast design landscape.

Amy sought out the SBDC to help expand her firm "the right way." They have helped with everything from

business planning, budgeting, marketing, and most recently navigating the unfamiliar waters of applying and obtaining a PPP loan. The advice she's received has helped her remain on track during these difficult past few months and as a result, she has emerged more focused and determined.

Amy Peltier has been featured in HGTV Magazine, Los Angeles times and on the cover of California Homes.
