**CHESHIL CONSULTANTS, INC.**

*But you can call us CCI!*

CCI is a small, minority business located in Springfield, VA. The company was started almost 40 years ago by our founder and president, Chetan Bhimani (but you can call him Chet!) Chet brings to the table countless years of experience in the IT industry and his expertise has transformed the company into a Custom Web-Based Database Development and Staffing business.

Whether you are looking to improve your company's business management process efficiency, or find the perfect short-term or long-term staff person, CCI can provide you with an affordable solution. We emphasize technology to improve business processes and provide simple database solutions. The advantage of working with CCI is that our small, but highly experienced staff, will take the time to listen to your needs, and your pain-points, and customize a solution for you.

CCI is especially grateful to the Mason SBDC and Program Manager, Timm Johnson, for providing us with ongoing guidance, ideas and strategies to help our business grow. When CCI first learned of the PPP loans available through the SBA, the application process seemed daunting. There were so many avenues to pursue, and we were busy with the daily operations of our business that it seemed unlikely we would be able to secure some of the funding.

Timm suggested we teleconference with him so he could help us navigate the process and the options, and recommended a list of PPP loan providers. As a result, CCI was able to narrow down the search, select a company, apply for the loan, and receive the funds in our checking account within a week. For an organized company you will be surprised to learn how simple the initial application for the PPP loan can be.

We are thankful and fortunate to be a recipient of the SBA funds, and our staff has been working diligently during the current crisis to keep the business running smoothly, and to keep us growing.
