

RSFBPW Anti-Spam Policy

Members and visitors **must individually ask** each member for permission to place them on any form of mass communication-email blasts, newsletter lists, U.S. Mail lists or group texts. Without each member's individual permission, we consider this type of communication to be an act of spamming. To build long-term relationships with members please write personal notes and emails first and after developing rapport, ask these members only for permission to place them on your mailing list. Thank you for your cooperation.
