

Lead Commercial AV Programmer Installer

Job Description:

Black Tiger is looking for a self-motivated Lead Commercial AV Programmer Installer in North Orange County. We are a growing family company with a passion for customer service. Our business is built on honesty, innovation, and integrity. We provide quality service to our customers every single time. Our company offers a 4/10 weekday so everyone can enjoy a 3-day weekend!

Responsibilities:

- Delivery, installation, and testing of all AV integrated systems including audio, video, lighting, and control systems of related equipment
- Lead, mentor, and direct installers on projects
- Effectively interface with the clients and other trades
- Provide troubleshooting and technical support
- Ability to communicate effectively face-to-face, in groups, via phone, and written communication.
- Knowledgeable of all phases of systems integration
- Structural mounting of equipment (projectors, flat panels, projection screens, SMARTBoards) to ceilings and walls
- Experienced running Cat53, Cat 6, and Fiber
- Configuration of AMX, Crestron, Extron, and/or SP Controls control systems;

Requirements:

- Minimum of 5 years experience in AV installation
- Dedicated to quality customer interactions
- Experience with leading an installation team on a project site
- Event production audio, video, or lighting experience preferred
- Knowledge of low voltage technology
- Experienced in running Cat53, Cat 6, and Fiber
- Valid driver's license with reliable and clean driving record for employees that may operate Company vehicles
- Extron, AMX, Crestron, and Audio DSP experience preferred
