

Dear SFX Parents,

Please complete the **required** online 2021-2022 Student Health History Update Form. [Click here to access the online form.](#) Allow approximately 10 minutes to complete this form for each of your students. The SFXS Health History update is confidential. The deadline to complete is **Monday, August 2nd**. **To make sure your student is eligible to attend the first day of school, the health history update and immunizations must be complete. These two forms are state mandated and they must be completed.**

All students attending SFX must have proof of immunizations or a signed exemption in order to attend the first day of class. According to the Arizona State Law Revised Statutes 15-871-874, "students must have proof of all immunizations or a signed exemption in order to attend school." [Click here for the State of Arizona required immunization information.](#) Most students will be up to date with their required immunizations with the exception of those entering into Kindergarten or 6th grade and those moving from other states. Listed below are the general requirements for incoming Kindergarten and 6th Grade students:

Incoming Kindergarten:

- 4- 5 DTaP
- 3 - 4 Polio
- 2- MMR
- 3 - 4 Hep B
- 1 - 2 Varicella

Incoming 6th Graders who are 11 years old also need:

- 1- Tdap
- 1- Meningococcal Vaccine

We strongly suggest that parents review the state immunization requirements. Schedule your child's vaccine appointment to receive any missing vaccines as soon as possible. Health care appointments become difficult to obtain as the first day of school approaches. Please provide proof of all immunizations received by submitting your student's immunization record. Ask your provider for a copy of this documentation which should include the name(s) and date(s) of any vaccine received. This form must have the provider's office contact information along with their signature. You may drop off your child's immunization record directly to SFXS during the month
