

INTERESTED IN DOING BUSINESS WITH EPA?

The EPA's Office of Small and Disadvantaged Business Utilization (OSDBU) is calling on qualified small business environmental consulting and remediation Federal contractors that operate in North American Industry Classification System (NAICS) codes 541620 and 562910, to register on EPA's Small Business Vendor Database.

Targeted Businesses:

The Small Business Vendor database serves as a repository of capable and qualified small businesses seeking EPA contract awards on the prime and subcontracting level. As EPA continues efforts to expand registration in the database, OSDBU is currently targeting ready, willing, and capable environmental consulting and remediation small businesses to support EPA's Superfund Remedial Program, which cleans up the nation's most serious uncontrolled or abandoned releases of contamination at polluted sites.

Please Take the Following 3 Steps to Register

1 Do Your Homework Before Registering:

Please visit for more information on **EPA's Superfund Remediation Acquisitions** at <https://www.epa.gov/superfund/remedial-acquisition-framework> to help determine your company's capabilities to perform work in this area. Also, please visit **EPA's Clean-Up in My Communities Map** at <https://www.epa.gov/cleanups/cleanups-my-community>, to see the location of the cleanup sites and to identify which of those sites are located in designated HUBZones.

2 Access OSDBU's Small Business Vendor Database

<https://vpmdsweb.epa.gov/Vendors/create>

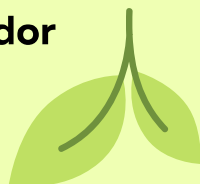

3 Complete ALL the Fields in the Database

To optimize identification of qualified vendors for Superfund remediation acquisitions:

- In the "Summary Description" field, please include the keywords **Superfund Design and Engineering Services** or **Superfund Remediation Environmental Services**, if applicable, in describing your company's capabilities
- In the "Past Performance" field, please include information on your company's past performance in the environmental consulting and/or remediation areas
