## **DISCUSSION**

Our community has begun to embark on an extraordinary school year with many unknowns. By planning carefully and taking health precautions both individually and collectively, our community can work together to support safe student learning and growth using a hybrid model of instruction (a combination of in-person and distance learning).

Tune in for a live panel discussion with San Luis Obispo County's local health officer and local school officials regarding the expectations and challenges for when SLO County students return to the classroom, and for tips on keeping classrooms open as we navigate this global pandemic.

*A question and answer session will follow the discussion. A recording of this webinar will be posted online with closed captioning in both English and Spanish the following business day.*
