

Dear ECAS members,

We are excited to announce that SupplierLink has partnered with the [Saskatchewan First Nations Natural Resource Centre of Excellence](#) (SFNNRCE), to bring the [EXPORT](#) verified designation to SupplierLink. Through an integration with *EXPORT*, SupplierLink will be able to provide a database of verified Indigenous businesses. The integration will not only showcase verified Indigenous businesses, but also help owners hire verified Indigenous businesses.

As a member of ECAS, you will benefit from SupplierLink's partnership with SFNNRCE by gaining access to a larger pool of verified businesses, including Indigenous businesses.

This partnership is a major milestone in helping all vendors, including non-Indigenous businesses, to achieve the results hoped for by owners, buyers and the public around economic reconciliation. Buyers can trust that the information provided on SupplierLink is accurate with no need to audit or verify. We are excited about this new partnership and the opportunities it will bring to our members and partner associations.

Thank you for your continued support.

Sincerely,

[The SupplierLink Saskatchewan Team.](#)
