2024 Canadian Electrical Code Changes

The course is here!

Click here to access the 2024 Canadian Electrical Code Information session.

The online 2024 CEC change information session is online for those unable to attend the in-person sessions.

REMINDER in order to qualify for the Registered Electrical Contractor Program offered by TSASK, all JP electricians working for your company are required to complete the information session. This session currently meets the requirement to participate in a continuing education program under the ECAS umbrella.

ECAS is required to provide confirmation that our member companies have confirmed their electricians have complete this update before July 1, 2025.

Please provide a list of your JP electricians who have completed the update as well as an affidavit that these are all of the current JP electricians in your employ.

If you have any questions or suggestions as to other training ECAS can offer, please reach out to the ECAS Executive Director
