Re: Neighborhood Meeting Invitation for the Verdin Solar Project Major Comprehensive Plan Amendment

Dear neighbor or interested party,

Verdin Solar LLC (the "Applicant") is applying for a Major Comprehensive Plan Amendment ("MCPA") to support development of the proposed Verdin Solar Project in unincorporated Pinal County, Arizona. The proposed Project consists of a utility-scale solar photovoltaic and battery energy storage facility located on Arizona State Trust Land within the Santa Cruz Flats region, approximately 8 miles southwest of Red Rock, Arizona.

The proposed amendment would modify the existing Comprehensive Plan land use designation from Major Open Space and Very Low Density Residential to Green Energy Production to allow for future development of the Project and associated infrastructure. The Project is anticipated to include approximately 225 megawatts (MWac) of solar generation capacity and a battery energy storage system with approximately 250 megawatts (MW) of storage capacity.

The Project area is generally located south of Interstate 10, west of the existing Saguaro to Tat Momoli 230-kilovolt transmission line owned by APS, and near existing regional energy infrastructure, including the Tortolita Substation. The Project has been designed to preserve major drainage corridors, open space areas, and sensitive environmental resources where practicable.

The Applicant is hosting a neighborhood meeting to provide neighbors and interested parties an opportunity to learn more about the Project, ask questions, and submit comments. We welcome your attendance at the following location, date, and time:

Date: July 8, 2026

Time: 6pm - 8pm

Location: Red Rock Elementary School Cafeteria

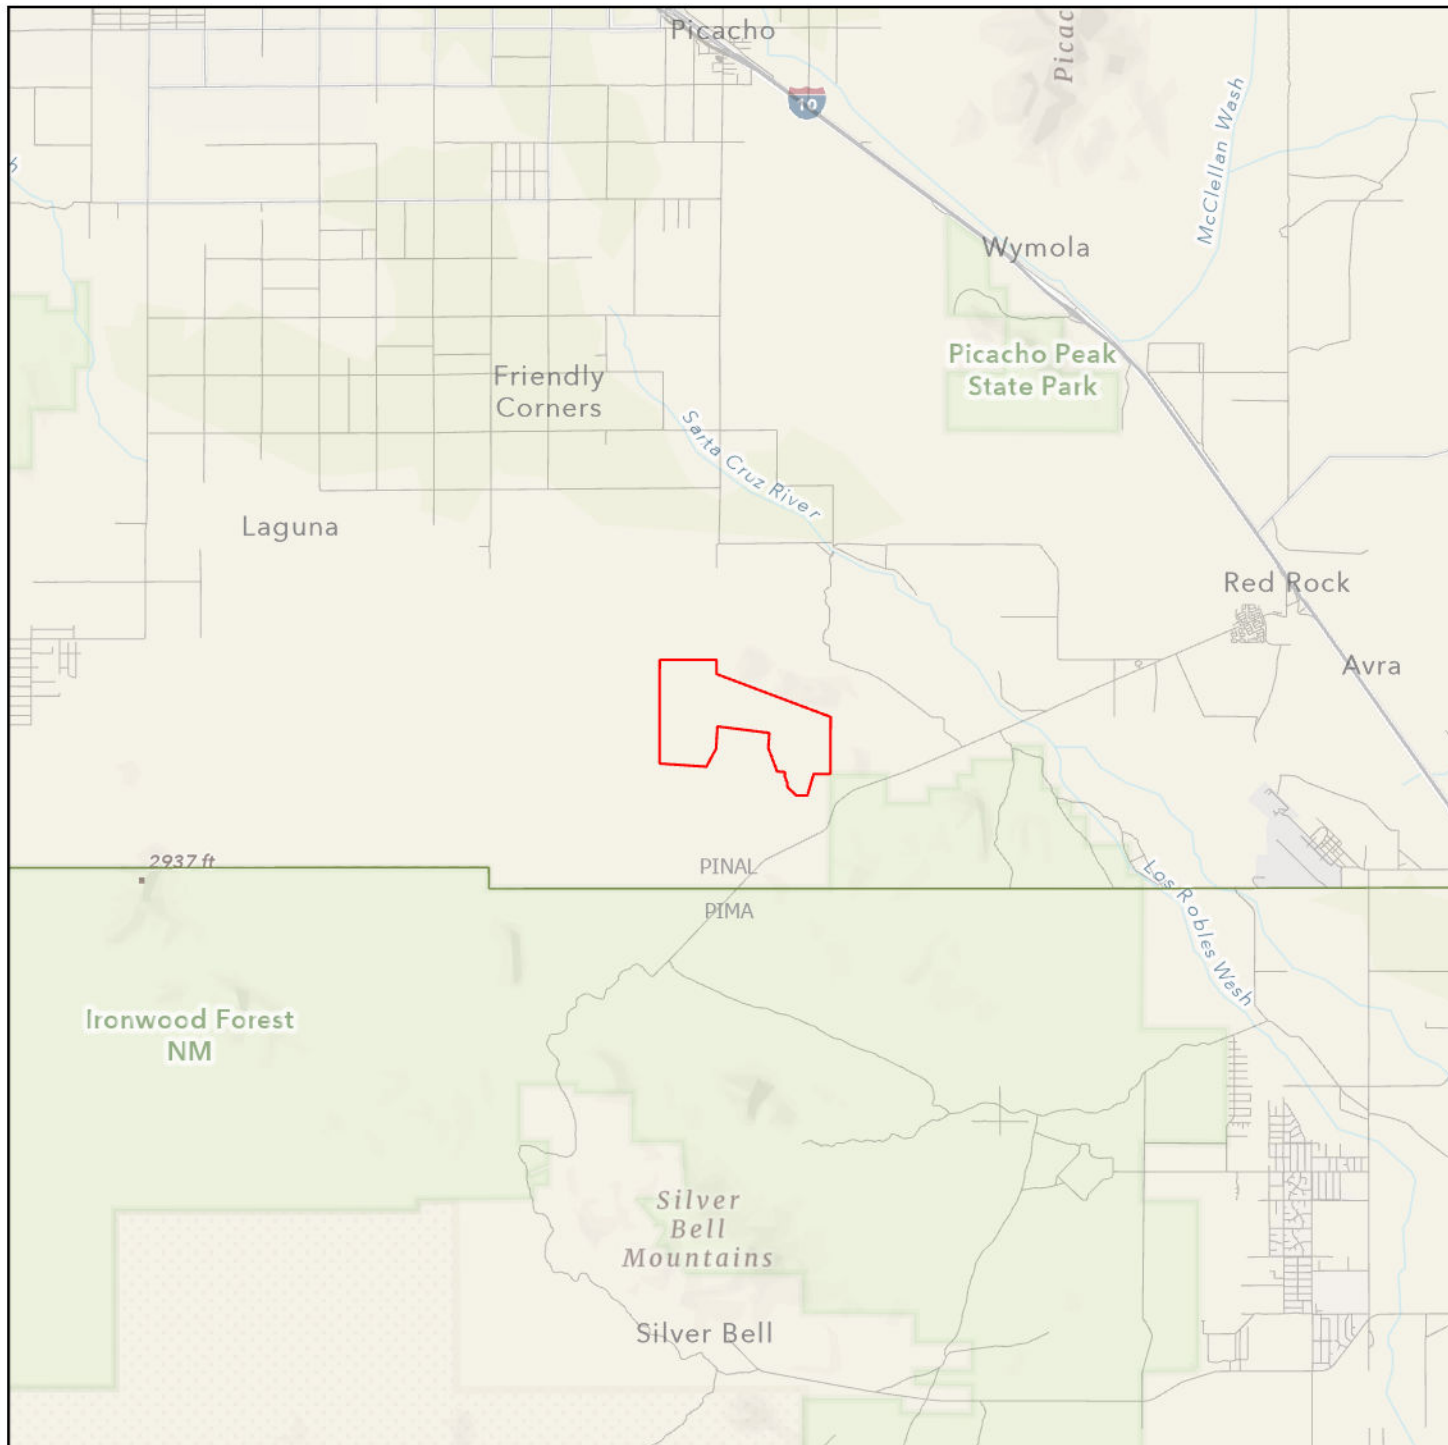

The meeting will be held in an open house format, and community members are encouraged to view poster boards, ask questions and provide comments. Project representatives will be on hand to answer questions and provide further information about the application and process.

Comments may be submitted in advance by email to zbartholomew@advanced-power.com. We welcome your input and questions.

Sincerely,

Zac Bartholomew

Senior Manager, Development at Advanced Power
