

Engineering Certificate

CMTN Engineering students learning outside the classroom

Where will engineering take you?

Engineering is a discipline with a wide variety of areas to study. Science, mathematics, astronomy, chemistry and computer programming are just the beginning.

Colleges and universities in British Columbia have developed a Common First-Year Engineering Curriculum (CFYEC). That means when you complete the Engineering Certificate at Coast Mountain College, you can continue your program at any post-secondary institution in B.C.

Complete the certificate in one or two years while enjoying smaller class sizes and more one-on-one time with instructors.

college

Program cost

Program length	Total program cost
1 year full-time	$19,178.99 CAD*

*Costs include supplies and fees. These costs are estimated and will vary. View the full list of fees and costs at www.coastmountaincollege.ca

Why choose CMTN?

- Focus on experiential place-based learning (learning outside of the classroom)
- Smaller class sizes
- More one-on-one assistance from faculty
- Affordable program cost
- Option to transfer to any other engineering program in B.C. to complete your degree

Program transfer options

There are many other colleges and universities where you can pursue an engineering degree once you complete your certificate at CMTN, Here are some of your options:

- British Columbia Institute of Technology (BCIT)
- Simon Fraser University
- University of British Columbia — Vancouver
- University of British Columbia — Okanagan
- University of Victoria
- plus many other schools across Canada

Where to next?

Here are some recent examples of where and how graduates of the CMTN engineering program continued their education. All of these students transfered after graduating into the second year of their chosen program.

- Electrical engineering at University of British Columbia — Vancouver. Currently in second year of program.
- Civil engineering at University of British Columbia — Vancouver. Completed MSc degree.
- Mechanical engineering at University of Victoria. Currently in second year of program.
- Applied Physics Degree at Thompson Rivers University. Completed the program.
- Mathematics Degree at Simon Fraser University. Currently in fourth year of program.
- Engineering at University of Calgary. Currently in third year of program.
