

CLIMATE ACTION

Energy and Electrification Resource Fair

Curious about energy-saving tips and ways to reduce your carbon footprint?

Join Ramsey County and community partners in learning:

- How to understand and lower your utility bill.
- About programs and services offering free or low-cost resources to reduce energy costs.
- How to electrify your home.
- More about the Environmental Center.

This is an all-ages event with an activity table available for children. Snacks will also be provided. We encourage the use of public transit, via route 65. Parking is available on site.

For questions, please contact Ramsey County Climate and Health team at climateaction@ramseycounty.us

November 3, 2025, from 4p.m. – 7p.m.
