

Amanda here!

Last Summer I started a 'fun little history project' here at St. John ~ can you believe we will be celebrating 150 years in 2027? As I was familiarizing myself with the office and digging through cabinets and drawers I found more and more newspaper articles, pictures and booklets. And I was captivated enough to dive right into the history of our beautiful congregation. I really lucked out when a couple of our members brought in binders full of great information, from big historical events to all the previous pastors! I have been having so much fun with it.

But what good is the information if it's not shared?! As my interest peaked and the information grew, so did this idea I had.....I would love to share the information that I have gathered and collected (some from the archives and some from current members of the church) with you all!! And hopefully you will take a little look at it and see if there is anything you can add to our history books! So starting in August there will be display boards in the gathering area to share with you what I have come across thus far.

150 years and growing is something to be proud of and I can't wait to celebrate our official anniversary in 2027! Be on the lookout for more information and events to come....
