

Dear Families,

At Concordia, we seek to partner with you in helping students build healthy, high-character, and God-honoring habits they can carry into any situation—both online and offline.

We are pleased to share that Concordia staff members are beginning to use resources from [The Social Institute](#) (TSI) to support students, families, and educators as they navigate learning and well-being in today's digital world. This includes guidance related to A.I., social media, and device use. Throughout the spring, Concordia teachers will be using age-appropriate TSI lessons to help students engage with technology in thoughtful, responsible, and God-honoring ways.

TSI also offers tools specifically designed for families. No matter your child's current level of technology use—whether they regularly use devices and apps, do not have access at home, or anything in between—these resources are designed to be flexible and family-friendly.

We are honored that you have chosen Concordia as a partner in your child's education. We recognize that each household has its own values and approach to technology—and we fully respect that. This initiative is not about prescribing rules or parenting strategies. Rather, it is about offering ideas and tools that you may use in ways that best fit your family.

We encourage you to register for a free parent account with *The Social Institute Toolkit*, which serves as a "CliffsNotes" guide to social media and technology.

To get started:

1. Visit the [Toolkit](#) and select *Activate Account*
2. Enter Concordia's school code: 58f20C7189FECB

You are also invited to [explore the additional resources](#) The Social Institute provides to support families.

We are grateful to offer this timely education to our school community. If you have any questions or would like to share your thoughts, please feel free to reach out.

God's Blessings,
